

Motivated final-year Information Technology student with hands-on experience in full-stack development using the MERN stack and Python. Skilled in building responsive web applications, developing RESTful APIs, and managing databases. Passionate about creating efficient, scalable solutions and continuously expanding knowledge in data science and software development.

EDUCATION

- Bachelor of Technology**
Gandhinagar Institute of Technology
2021 - 2025 *Gandhinagar*
- | | |
|--------------------------|------------------------------|
| Courses | |
| - Information Technology | - CGPA- [7.26] UP TO 7TH SEM |

WORK EXPERIENCE

- Full Stack Intern**
Syndell Technology Pvt. Ltd.
01/2025 - 05/2025 *Ahmedabad*
12-week Internship Contributed to full-stack development tasks using the MERN stack. Assisted in building responsive user interfaces and integrating backend services. Gained practical experience in API development, database management, and collaborative coding using Git.
- Full Stack Intern**
Infividhya Pvt. Ltd.
06/2024 *Ahmedabad*
2-week Internship (2024) Explored the fundamentals of full stack development. Gained practical exposure to front-end and back-end integration. Improved coding efficiency and learned to work with modern web technologies in a team environment.
- FLUTTER APP DEVELOPMENT**
STRINIX PVT.LTD.
07/2024 *Ahmedabad*
I successfully completed 2-week ofiine internship at Strinix Pvt. Ltd. as a Flutter App Developer. During this internship, I worked on developing and optimizing cross-platform mobile applications using the Flutter framework. I gained hands-on experience in designing user interfaces, integrating APIs, and debugging applications to ensure smooth functionality. This role allowed me to enhance my programming skills in Dart and improve my understanding of mobile app development processes.
- Programming Skills Bootcamp**
Vrunda Technologies
09/2021 *Ahmedabad*
Participated in a structured bootcamp focused on enhancing coding logic and problem-solving skills. Learned core programming concepts and applied them in a Data Science context. Built a strong foundation in analytical thinking and algorithmic approach.
- Data Science Intern**
Technook
03/2023 *Ahmedabad*
Gained hands-on experience in Python for data analysis and machine learning. Worked on datasets to apply algorithms and visualize insights. Strengthened skills in data preprocessing, model building, and evaluation techniques.

SKILLS

Languages: HTML, CSS, JavaScript, Python, Java

Frameworks/Libraries: React.js, Node.js, Express.js

Databases: MongoDB, MySQL

Full Stack Development: MERN Stack

Version Control: Git, GitHub

Tools & Platforms: VS Code, Postman, Netlify, Render, Vercel

PERSONAL PROJECTS

Quick Chat

- Real-time chat app using the MERN stack, featuring authentication and socket-based messaging.

JARVIS – AI Virtual Assistant

- Voice-enabled desktop assistant built with Python, capable of automating everyday tasks

Skycast – Weather Forecasting App

- JavaScript-based weather app fetching real-time data from an external API.

Imagify – AI Image Generator

- AI-based image generator using OpenAI API with React frontend and Node.js backend.

Portfolio Website

- Designed and developed a personal portfolio using HTML, CSS, and JavaScript to showcase projects, skills, certifications, and experience. Focused on responsive design and clean UI/UX to ensure accessibility across devices.
